--	----------------------------------

The City of Sunnyvale is expected to receive \$617,000 in HOME funds for fiscal year 2001/02. Non-Profit agencies and CHDOs are expected to play a major role in the provision of new and rehabilitated housing projects with HOME funds and in providing support services to those projects. HOME funds will be used to increase housing for low income families, seniors, and the disabled through new construction, acquisition, and innovative solutions which support affordable housing and are close to public transportation systems. In particular, the purchase of a group home to house very low income disabled residents will be using HOME funds

Locations

All the City's projects are available City-wide
